| Saturated Fats: | 0.4 g (2 % DV*) | | |
| PRODUCTION PROCESS | | | |
| The raw material mixing process according to the formulation begins. The powder mixture in the hopper is gradually fed into the extruder, along with water from the independent tank, and the extrusion process begins. The dough obtained from the extruder is placed in the cutter and laminator, which cuts the dough into the predetermined size. The product is subsequently baked and chilled. Lastly, the product is primary and secondary-packaged and then palletized. | | | |
